

## Tukwila Bike Rack Program

The City of Tukwila will be installing bike racks around the city through a Regional Congestion Mitigation and Air Quality (CMAQ) grant that the City of Tukwila received to reduce air pollution, traffic congestion, and fuel consumption by encouraging active transportation (bicycling or walking) or transit use.

Bike racks will be available starting in Spring 2017. Quantities are limited, and proposed locations will be reviewed to determine adequate space for installation prior to approval. Interested businesses or organizations can submit an application online at <http://tukwilawa.gov/SKCTransportationOptions> or via email to [SKCTransportationOptions@TukwilaWA.gov](mailto:SKCTransportationOptions@TukwilaWA.gov).
