Total Fixture Units					$\frac{10 \text{tai Discharge (gal/day)}}{187} = \square \text{RCE}$	
Residential Customer E	auival	ent (R	CE)			
20 fixture units equal 1.0 RCE					C. Total Residential Customer Equivalents:	
$\frac{\text{Total Fixture Units}}{20} = \boxed{\text{RCE}}$					(add A & B)	
					A + B = Total RCE	

Pursuant to King County Code 28.84.050, all sewer customers who establish a new service which uses metropolitan sewage facilities shall be subject to a capacity charge. The amount of the charge is established annually by the Metropolitan King County Council at a rate per month, per residential customer or residential customer equivalent, for a period of fifteen years. The purpose of the charge is to recover costs of providing sewage treatment capacity for new sewer customers. All future billings can be prepaid at a discounted amount.

Questions regarding the capacity charge or this form should be referred to King County's Wastewater Treatment Division at 206-477-5516.

I understand that the information given is correct. I understand that the capacity charge levied will be based on this information. I understand that any deviation may result in a revised capacity charge.
