Cut open the walls as needed for plumbing Access. Terminate the old washing machine, and utility sink positions. Plumb a new drain branch with ABS materials to serve the new washing machine position. Connect the new branch to the existing 2" ABS drain in the crawl space. Install a washing machine drain box in the new position. Install an air admittance valve box to serve the new drain. Cut away the remaining section of copper piping serving the Kitchen sink drain. Rework the section with ABS materials. Elevate the existing 2" ABS in the crawl space to eliminate back-grade, and promote better drainage.
 Install new appliance valve boxes to serve the washing machine, and refrigerator positions. Connect the new valves to the existing hot and cold copper water supply with Aquapex materials. Test all work for leaks and proper function.
 Haul away the debris for proper disposal.
