

Tukwila Residents!!

Visible house numbers help us find you!!

Having house numbers that are visible may save a home- or even a life!

*When you call **911** for
Help will the Police or
Fire have to guess
where you house is!?*

It is up to you to insure that:

- Your house is numbered correctly
- The numbers are visible from the road
- Your private driveway is numbered
- Finding your house is not a guessing game

The municipal code of Tukwila adopts the International Fire Code 2015 505.1 that has specific parameters for the numbers used to address a house.

1. Be made of durable material at least six inches in height.
2. Contrast with the color of the building upon which it is placed
3. Be placed readily visible from the roadway; in the case that the residence is not visible from the roadway, the house number shall be placed in an obvious location at the entrance of the residence driveway.

We want to find you when you need help!
