

STORMWATER PERMIT UPDATE

Public Meeting to Provide Input on Tukwila's Stormwater Management Program Plan

To meet the requirements of the City of Tukwila's Western Washington Phase II Municipal Stormwater Permit, the City's Stormwater Management Program is currently being updated.

Tukwila's Public Works Department would like public input to help direct the updates. Please join us at a public meeting for an overview of the proposed changes.

Wednesday, February 20, 2019

1:00 to 2:00 PM

Tukwila Community Center

Meeting Room A

12424 42nd Ave South

Tukwila, WA 98168

The Public Meeting agenda will include; introductions, Phase II Permit requirements, discussion of proposed changes, and public comments. The City encourages residents, businesses and interested parties to attend this public meeting. Interested parties include: city residents, business owners, engineers, planners, designers, contractors and related professionals that live and/or work in the City of Tukwila.

If unable to attend and have comments, please contact the City's National Pollutant Discharge Elimination System (NPDES) Coordinator, Greg Villanueva, at (206) 431-2442 or greg.villanueva@tukwilawa.gov. The current 2018 SWMP Plan and the 2017 Annual Report is available on the Tukwila's NPDES web page <http://www.tukwilawa.gov/pubwks/npdes.html> and the 2019 SWMP Plan and 2018 Annual Report will be posted once updated, but no later than May 31, 2019.
