

STORMWATER PERMIT UPDATE

Public Meeting to Provide Input on Tukwila's Stormwater Management Program (SWMP) Plan

To meet the requirements of the City of Tukwila's Western Washington Phase II Municipal Stormwater Permit, the City's Stormwater Management Program Plan is currently being updated.

Tukwila's Public Works Department would like public input to help direct the updates. Please join us at a public meeting for an overview of the proposed changes.

Wednesday, February 24, 2016

1:00 to 2:00 PM

Foster Conference Room

6300 Southcenter Blvd. Suite 100

Tukwila, WA 98188

The Public Meeting agenda will include; introductions, Phase II Permit requirements, discussion of proposed changes, and public comments. The City encourages residents, businesses and interested parties to attend this public meeting. Interested parties include: city residents, business owners, engineers, planners, designers, contractors and related professionals that live and/or work in the City of Tukwila.

If unable to attend and have comments, please contact the City's National Pollutant Discharge Elimination System (NPDES) Coordinator, Greg Villanueva, at (206) 431-2442 or greg.villanueva@tukwilawa.gov.

The current 2015 SWMP Plan is available on the Tukwila's NPDES web page <http://www.tukwilawa.gov/pubwks/npdes.html> and the 2016 . The SWMP Plan will be posted once it has been updated.
