PUBLIC SAFETY PLAN

**Siting Advisory Committee
Report to Council – September 11, 2017**

Public Safety Plan Siting Advisory Committee

Purpose:

“The Tukwila City Council and Administration share the common goal of ensuring robust community engagement regarding the siting of the facilities included in the Public Safety Plan. As such, the City will appoint and staff a Siting Advisory Committee that will provide input and advice to City officials throughout the siting process...”

Public Safety Plan Siting Advisory Committee

Responsibilities:

- Meet regularly to review outreach efforts, provide advice on strategies and tactics for outreach, and key audiences.
- Participate in public outreach efforts such as town hall meetings, review feedback generated by the community and verify that common themes heard from the community are being incorporated into siting decisions and facility plans when feasible.
- Provide the City Council with feedback about the physical siting process and outcomes.
- Provide the City Council with outreach advice, such as reviewing materials and identifying other groups to contact.
- Review potential sites and provide feedback.

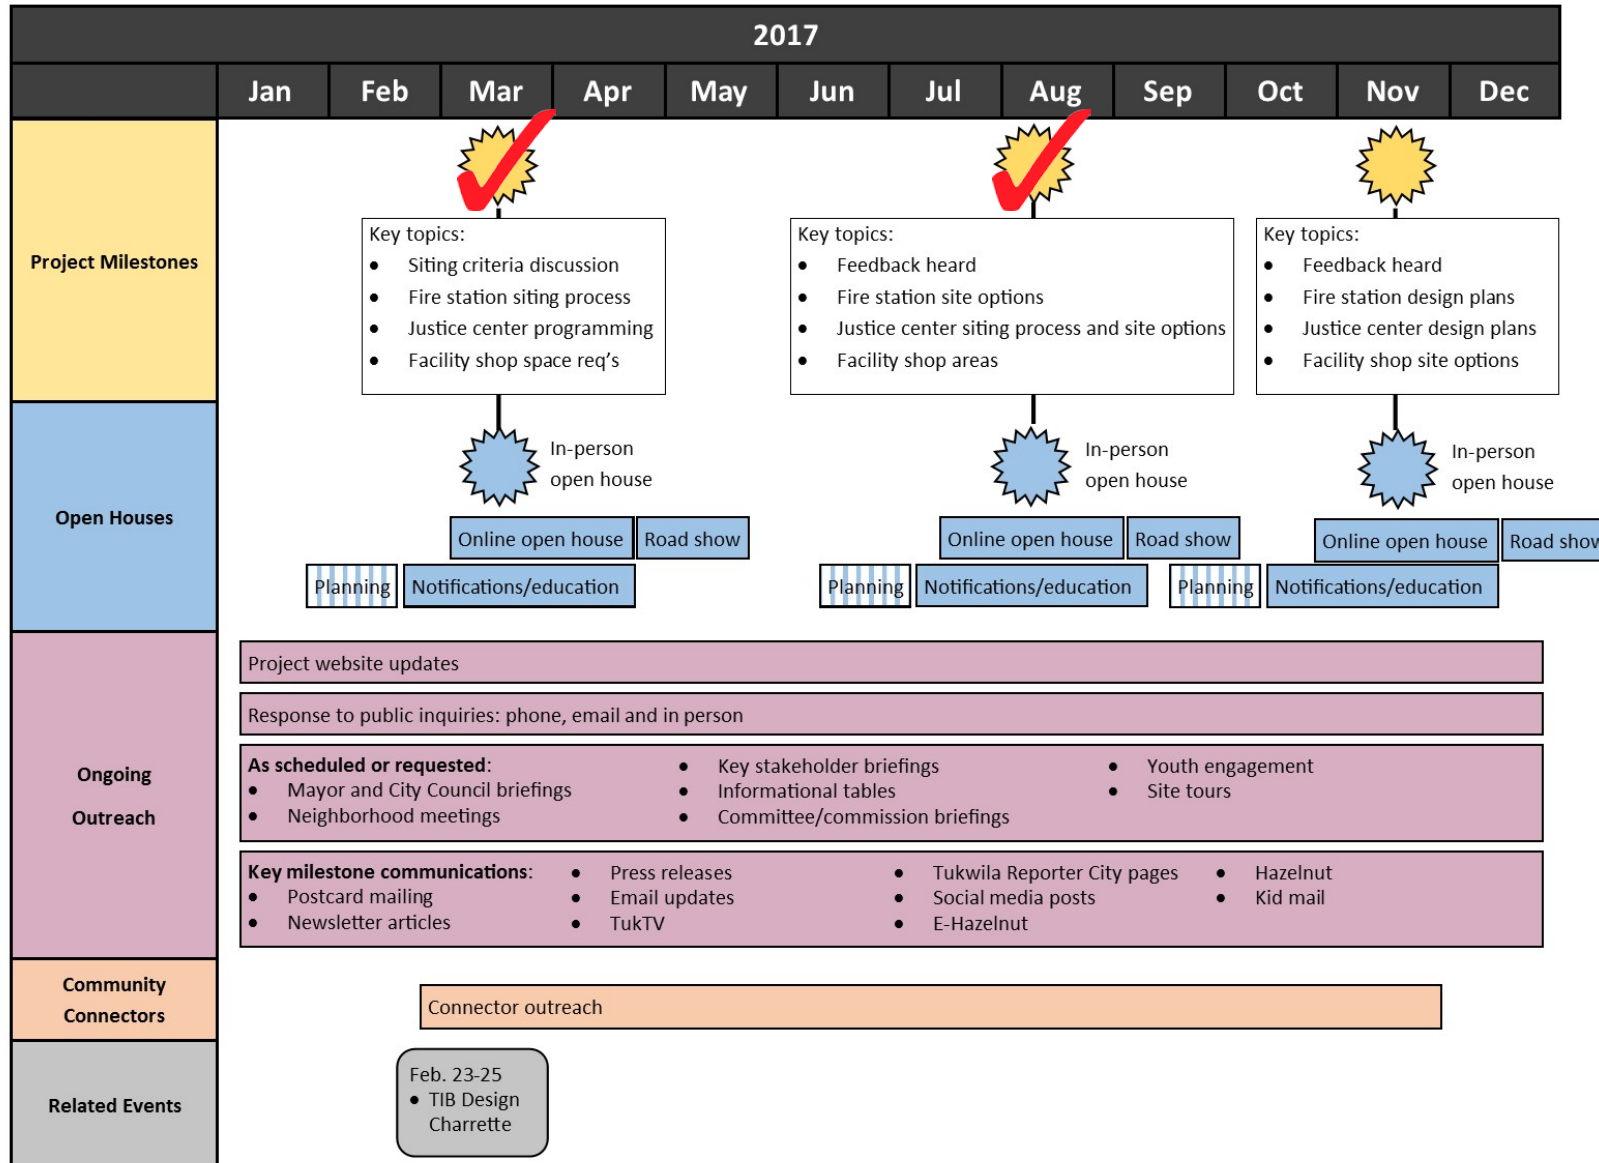

Public Safety Plan Siting Advisory Committee

Tukwila Public Safety Bond Outreach Schedule

PSP General Outreach Schedule

Outreach and Engagement Methods

- Flyering
- Community Connectors
- Postcard
- Posters
- E-Hazelnut
- Social Media
- City website
- Community groups and meetings
- Tukwila Reporter

August Open House – Update, meet the architects, see possible siting areas.

- In-person open house August 10th, 5:30-7:30 at Fire Station 54
 - 83 community members and families signed in, estimated 150 total attendees
 - Ice cream social, children’s activities
 - Fire, Police, Public Works equipment on display
- Online open house
 - 62 unique users
- Internal Outreach
 - Go to department/division meetings

What We Heard:

Fire Station Comments

- Configure so trucks can drive through
- Ladder truck at each station
- Showcase the trucks
- Fit in with neighborhood and traffic
- Glazing in bays and doors
- Similar design elements among all stations
- Be mindful of diversity, especially around TIB
- Eco-friendly, conserve energy
- Serve needs of fire fighters

Justice Center

- Not too sterile or prison-like.

General

- What are other people saying?
- Want to see some designs
- Justice Center on TIB

Outreach Feedback

- Multiple avenues for giving/receiving feedback
- Open house was welcoming, non-intimidating
- Good to have kids activities, food
- In November, would be good to have design options for people to see and provide feedback on
- Promotion for the August open house worked well
- The online open house is a great tool
- Outreach methods were good
- It was good to try different days in March and August

Siting Process Feedback

- Process
 - The siting criteria analysis
 - Fire Station Location Study
- Outcomes
 - We like to see City development help neighborhoods and improve visibility of City services
 - Prominent locations
 - Response times
 - Minimize displacement/relocation
