

Strategic Plan Survey

In 2012, we spent the better part of the year engaging with community representatives, City staff, and City leaders to develop a strategic plan that would guide the City of Tukwila's actions and investments for the following five to ten years. Now it is 2018, six years after this plan was written. As we begin the process of adopting the 2019-2020 budget using a new budgeting method, Priority Based Budgeting, we want to make sure that the strategic plan still reflects the Community's priorities and values.

In 2012, the City adopted a shared vision that Tukwila will be "The city of opportunity, the community of choice." The City also adopted a shared mission: "To provide superior services that support a safe, inviting, and healthy environment for our residents, businesses, and guests."

The City also developed a set of five goals:

1. A Community of Inviting Neighborhoods & Vibrant Business Districts.
2. A Solid Foundation for All Tukwila Residents.
3. A Diverse & Regionally Competitive Economy.
4. A High-Performing & Effective Organization.
5. A Positive Community Identity & Image.

If you want to learn more about the Strategic Plan, you can find it and more on the City's website:

<http://www.tukwilawa.gov/2012StrategicPlan>

So what do you think? Do the vision, mission, and strategic goals still reflect our community priorities? We want to hear from you.

1. What has been accomplished since 2012?
2. What does our community still need to work on?
3. What do you like about the strategic plan goals? What is important to you that the City should consider when developing the budget?
4. What would you change about the strategic plan goals? What is missing?

Now that you've had an opportunity to think about the plan and these question, join your neighbors for a Community Workshop on Thursday May 3rd from 6:00 to 8:30 at Thorndyke Elementary. We will provide food and child care, and interpretation services are available upon request. Come hear what your neighbors had to say about the strategic plan and the budget, help us prioritize all of the feedback and draft a final recommendation for City Council to consider.

After the Community Workshop, we will compile all of the feedback, and present any recommended changes to City Council and the community. We will use the feedback from this process to help guide the 2019-2020 budget.
